UNITED STATES FOREIGN TRADE

SUMMARY REPORT
FT 950-E

MAY 1961

FOR RELEASE
July 13, 1961

EXPORT TRADE BY COUNTRY

The Bureau of the Census, Department of Commerce, announced today that the rise in United States exports of domestic and foreign merchandise, including Special Category commodities and unadjusted for seasonal change, from \$1,705.5 million in April to \$1,743.8 million in May¹ reflected increases in exports to all areas except Latin American Republics. Changes in the dollar values of exports to all areas during the period were as follows: Canada, from \$313.3 to \$330.0 million; Western Europe, from \$575.3 to \$581.7 million; Latin American Republics, from \$277.6 to \$277.2 million; and "all other countries," from \$539.3 to \$554.9 million. Exports of Special Category commodities rose from \$125.9 million in April to \$153.9 million in May.

With Special Category commodities excluded, exports of domestic and foreign merchandise increased slightly from \$1,579.6 million in April to \$1,589.9 million in May. Decreases were reported in exports to sterling area countries, from \$247.7 to \$234.7 million; O.E.E.C. countries, from \$495.4 to \$491.1 million; and Latin American Republics, from \$268.9 to \$265.7 million. Increases were noted in exports to all continents except Europe.

¹ See the May 1961 issue of Report No. FT 900-E for seasonally-adjusted figures on total exports, excluding M.S.P. (military) shipments. Seasonally-adjusted data are not available for total exports including M.S.P. (military) shipments or by country of destination.

Exports to Asia rose from \$358.0 million in April to \$366.8 million in May as increases in exports to Japan, from \$148.2 to \$160.0 million; Republic of the Philippines, from \$24.7 to \$31.2 million; and Israel, from \$8.7 to \$14.5 million were partly offset by decreases in exports to the Republic of Korea, from \$19.9 to \$15.1 million and India, from \$42.9 to \$38.7 million. Exports to North America advanced \$429.1 to \$434.2 million as a rise in exports to Canada, from \$302.7 to \$319.6 million was partly offset by a drop in exports to Mexico from \$68.3 to \$63.2 million. The small increase in exports to South America, from \$170.4 to \$174.2 million was partly the result of higher levels of exports to Argentina, from \$34.8 to \$40.6 million and Brazil, from \$34.3 to \$37.1 million. At the same time, however, exports to Venezuela fell from \$34.2 to \$27.8 million. Slight increases occurred in exports to Africa, and Australia and Oceania, from \$63.8 to \$65.6 million and from \$28.7 to \$30.0 million, respectively.

Exports to Europe dropped from \$529.6 million in April to \$519.1 million in May. Reflected in this change were decreases in exports to some countries of this continent which were partly offset by increases in exports to others. The more noticeable of these changes were as follows: France, from \$52.6 to \$45.3 million; Spain, from \$31.1 to \$25.0 million; United Kingdom, from \$79.3 to \$74.8 million; Ireland, from \$6.4 to \$2.0 million; Turkey, from \$7.7 to \$13.3 million; Italy, from \$67.5 to \$72.6 million; and West Germany, from \$84.8 to \$89.6 million.

EXPLANATION OF STATISTICS

COVERAGE: Export statistics include government as well as non-government shipments to foreign countries. The export statistics, therefore, include Mutual Security Program military aid, Mutual Security Program economic aid, and Department of the Army Civilian Supply shipments. Separate figures for Mutual Security Program military aid are shown in the footnotes of this report. Shipments to United States armed forces and diplomatic missions abroad for their own use are excluded from export statistics. United States trade with Puerto Rico and United States possessions is not included in this report, but the export trade of Puerto Rico with foreign countries is included as part of the United States export trade. Merchandise shipped in-transit through the United States between foreign countries is not included in export statistics.

COUNTRY DEFINITION: Although the country of destination is defined as the country of ultimate destination or the country where the goods are to be consumed, or further processed or manufactured, the statistics do not always reflect this definition, as the shipper may not know the ultimate destination of the shipment. In such cases, the shipments are credited to the last country, as known to the exporter at the time of shipment from the United States, to which the goods are to be shipped in their present form. It follows, therefore, that the statistics will tend to be overcounted for shipments to transshipments or merchanting countries and undercounted for other countries. As explained in the footnotes to the table, exports of Special Category commodities are not included in any of the published country totals, for reasons of security.

VALUATION: The valuation definition used in the export statistics is the value at the seaport, border point, or airport of exportation. It is based on the selling price (or cost

if not sold) and includes inland freight, insurance, and other charges to the port of exportation. Transportation and other costs beyond the United States port of exportation are excluded. However, in some instances the valuation may not be reported in accordance with this definition, particularly where the export value is difficult to determine or must be estimated. None of the values have been adjusted for changes in price level.

EFFECT OF SAMPLING: The value of export shipments individually valued at \$100-\$499 (about five percent of total export value) is estimated by sampling. Effective with the statistics for January 1960, the previous sample ratio of 10 percent was increased to a 50 percent sample for countries other than Canada with the 10 percent sample being retained for Canada. The estimated values are distributed among the area, continent and country totals. For the 1960 and 1961 export figures in this report, the probable variability due to sampling is less than \$50,000 or less than one percent. The largest variation from rounding of figures is \$50,000. For further information regarding sampling procedures, see the September 1953, February 1954, January and June 1956, and the October-December 1959 issues of Foreign Trade Statistics Notes.

Further information regarding coverage, country definition, valuation, etc., is contained in the "General Explanation" in foreword of Report No. FT 410. For complete statement, see foreword in Foreign Commerce and Navigation of the United States.

^aLatin American Republics. ^bSterling area countries. ^cWestern Europe. ^dO.E.E.C. (Organization for European Economic Co-operation) countries. *Indicates less than \$50,000. ¹For definitions of countries as used in this report, refer to current edition of Schedule C, Classification of Country Designations Used in Compiling the United States Foreign Trade Statistics. ²Country detail is not reported in the export statistics for Special Category commodities beginning July 1950 for security reasons. For certain areas, export totals include Special Categories, as shown at the beginning of the table. Export figures for other areas and countries represent total exports less exports of Special Category commodities. During 1960, security restrictions were removed for certain aviation fuels and lubricating oils. All totals shown in this report reflect the declassification of these commodities. See the January 1961 issue of Report No. FT 410 for a list of Special Category commodities. During 1960 security restrictions were also removed for all forms of uranium, thorium, special nuclear material, and deuterium oxide (heavy water). The 1960 totals shown in this report have not been revised to include data on these commodities but data for these commodities are included in the 1961 totals. ³Includes \$72.5 million of Military Mutual Security Program shipments (\$20.7 million to Western Europe). ⁴Includes \$58.5 million of Military Mutual Security Program shipments (\$25.5 million to Western Europe). ⁵Includes \$94.0 million of Military Mutual Security Program shipments (\$25.8 million to Western Europe). ⁶Includes \$79.1 million of Military Mutual Security Program shipments (\$33.3 million to Western Europe). ⁷As explained in the April 1958 issue of Foreign Trade Statistics Notes, this is an arbitrary category established with April 1958 statistics to cover certain shipments to unidentified countries in Western Europe. ⁸Country designation established effective July 1960. Formerly French Equatorial Africa. ⁹Country designation established effective July 1960. Formerly French West Africa and Republic of Togo. ¹⁰Country designation established effective July 1960. Formerly Belgian Congo. ¹¹Country designation established effective July 1960. Includes areas formerly known as "Somaliland" and "British Somaliland." The data shown for periods prior to July 1960 reflect combined totals on United States export trade with Somaliland and British Somaliland. ¹²Country designation established effective July 1960. Formerly Madagascar.
